

AcquiLite Firmware changes through v1.08.0915.

The firmware for the A7801 released in September 2008 has a number of minor updates detailed below. This document includes firmware change logs for releases prior to v1.08.0915. The firmware update is provided at no cost.

List of changes in v1.08.0915:

2008-09-15 23:42

- Revised firmware version to v1.08.0915 for release

2008-06-28 14:01

- Implemented function IsPrefsRecordInRamValid() to test for preference record problems. Restart on failure to force valid preferences to load from flash memory.

2008-04-04 00:38

- Corrected a bug in the ntp/rdate time sync procedure. Old procedure did not always select the best of 3 results from the time server.

2008-01-23 00:14

- Updated firmware to handle both old and new types of serial numbers.
- Updated test and calibration system to handle the new serial number type.

2008-01-01 22:41

- Updated date pick menu into 2008-2020 since the firmware will ship after 2007.
